EXPERIENCE

FREELANCE · FULL-STACK DEVELOPER (02/2022 – PRESENTE)

End-to-end delivery of features using React/Next.js (SSR, code-splitting, protected routes) and Node.js/Express. Implementation of SSR + dynamic imports to improve TTI and mobile user experience.

Checkout design with MercadoPago/Stripe, validations, and state handling to reduce payment friction.

CI/CD with GitHub Actions and Docker for regular deployments and high availability.

Security: JWT authentication, role-based access control, OWASP practices, unit testing with Jest/Vitest.

Coordination with design/product teams; OpenAPI documentation and milestone tracking with Jira.

MongoDB data modeling, REST endpoints with pagination/search, and frontend performance optimization.

Tech stack: React, Next.js, TypeScript, TailwindCSS · Node.js, Express, REST · MongoDB, PostgreSQL/SQL · Docker, GitHub Actions, Firebase · JWT, WebSockets.

OTHER KNOWLEDGE

Languages: Java, JavaScript, Python

Databases and Storage: MySQL, Supabase

Authentication and Identity: Auth0

Messaging and Communications: Twilio, Sendgrid

APIs and Queries: GraphQL

Testing and Security: Jest, Vitest, OWASP Top 10

Frontend Build and Tooling: Vite, React Router

Version Control and Collaboration: Git, GitHub, Jira

API Tools: Postman, Insomnia

EDUCATION

National Technological University (UTN) – University Technical Degree in Programming

San Nicolás Campus · 01/2025 – 12/2027 (in progress)

School N.º 12 Reconquista D.E. 16 – High School Diploma in Computer Science

CABA · 2013 – 2018

CERTIFICATIONS AND COURSES

CoderHouse – Desarrollo Frontend (01/2022 – 07/2023)

CoderHouse – Desarrollo Full-Stack (01/2022 – 02/2023)

CoderHouse – Desarrollo Backend (08/2022 – 02/2023)

Gobierno de la Ciudad de Buenos Aires – Frontend JS (03/2025 – 07/2025)

LANGUAGES

Spanish: native

English: Upper-intermediate (B2)
